FOR IMMEDIATE RELEASE

KPM Receives Highest Possible Rating on Peer Review Report

Braintree, MA – Kevin P. Martin & Associates, P.C. (“KPM”) is pleased to announce that the Firm has received a “*pass report with no modifications*,” on its most recent peer review of the quality controls of the Firm’s accounting and auditing practice.

This level of report with *no* “matter for further consideration” is the highest possible rating and is received by only a “very small” minority of the firms nationally in the program.

“We are most pleased with the outcome of the peer review process,” comments KPM principal, Karen A. Kent. “The purpose of the AICPA Peer Review Program is to ensure the highest standards of performance by member CPA firms in their delivery of accounting and auditing services. The report rating is a measure of excellence within the profession,” she adds.

“This report rating is an independent confirmation as to the quality of the Firm’s services – the product of the Firm’s commitment, leadership and philosophy regarding quality services to our clients,” comments Kevin P. Martin, Jr. KPM’s Managing Director.

The review was conducted under the auspices of the Division of CPA Firms, American Institute of Certified Public Accountants and administered by the Massachusetts Society of Certified Public Accountants.
